# WILLIAM CAMACHO

## Frontend Web Developer

I'm a Mechatronic Engineer passionate about technology and impactful challenges, with a strong foundation in software development and a commitment to staying updated on technological advances. I excel in creative problem-solving, performance optimization, and user experience design. With strong communication skills and a proactive mindset, I'm prepared to make significant contributions to frontend development and tackle new challenges with enthusiasm and adaptability.

## WORK EXPERIENCE

### Frontend Developer - Tap4Click

January 2023 to present

- Web Application Developer for e-commerce at Tap4Click, using **REACT, HTML, CSS, and JavaScript**. Specialized in creating customized web pages with **WordPress** and **React**, tailoring solutions to the individual needs of clients.
- Passionate about utilizing advanced technologies such as **React, Redux, and JavaScript/TypeScript** to ensure smooth and efficient user experiences, driving constant innovation in robust teamwork environments.

### Freelance - Frontend Developer

July 2022 to December 2022

- Freelance Developer with notable experience in implementing new features for web applications using **React, HTML, CSS, and JavaScript**. Focused on ensuring an exceptional user experience and optimal site performance.
- I have effectively collaborated in agile teams under methodologies such as **Scrum**, achieving customer satisfaction and timely deliveries. My versatility and adaptability in dynamic environments reflect my commitment to technical excellence.

## EDUCATION

### ECCI University

Mechatronic engineer with outstanding experience in industrial automation and programming. Specialized in problem-solving projects and committed to innovation. Outstanding skill in frontend development, creating intuitive interfaces to enhance the user experience. Constantly seeking continuous learning and adapting to new technologies.

## COURSES

Committed to my professional growth, I have completed courses spanning from **fundamental JavaScript** to specialized skills in **Git** and **GitHub**, along with additional training in **React, TypeScript**, and **Object-Oriented Programming (OOP)**. My expertise includes **package management with NPM**, a profound understanding of **ECMAScript versions**, and practical application of advanced concepts in frontend development. Furthermore, I've honed skills in efficient terminal usage and development environment configuration, showcasing my continual dedication to evolving in this dynamic field.
